AUDIT OFFICE, OTTAWA, *May* 13, 1907.

SIR,—Please let me know how many Ross rifles have been delivered to date on the different orders, distinguishing between the various marks.

I notice that you have paid to March 31, 1907, on account of Mark II., 1906 order, $272,441.04, and $11,250 on Mark III. order, although, apparently, no rifles have been delivered. Paragraph 8 of the contract allows 75 per cent advance of the cost of only such rifles as are to be delivered in that year.

Pending your explanation of the non-observance of this part of the contract in connection with the payments made on account of the rifles, I would ask that no further payments be made to Sir Charles Ross on account, out of your letter of Credit.

I am, sir, your obedient servant,

The Deputy Minister of Militia and Defence. J. FRASER, *A.G*

The Deputy Minister of Militia and Deefnce.

DEPARTMENT OF MILITIA AND DEFENCE, OTTAWA, May 15, 1907.

SIR,—I beg to acknowledge the receipt of your memo. of the 10th instant *re* the Ross rifles.

I attach, herewith, the statement called for in paragraph 2 of the above-mentioned memo., showing the payments that have been made to the Ross Rifle Company up to date. Up to the present date, the department has paid to the Ross Rifle Company $359,743.55 in advance on progress estimates. My predecessor, Colonel Pinault, was of opinion that the Ross Rifle Company, in accordance with the terms of the contract, were entitled to 75 per cent progress estimates on all orders received, independent of delivery, and acting on his advice, my minister had always authorized these payments. A few weeks ago, I referred the question to the Department of Justice in order to ascertain the liability of the department in the matter; no answer has yet been received, and I would beg of you to consult with the Justice Department before stopping the payments to the Ross Rifle Company.

I take it for granted that your memo. means only to stop the payment of the progress advances of 75 per cent, and that you will allow the department to pay the 25 per cent to the Ross Rifle Company, on delivery; otherwise, it will handicap the department and the company to a very large extent.

Will you be so kind as to give me your instructions as soon as possible, as the Ross Rifle Company have delivered 1,000 rifles during last month, and they are claiming $6,250, which payment I have withheld, in accordance with your instructions.

I have the honour to be, sir, your obedient servant,

The Auditor General. EUG. FISET, Colonel, *D.M.M.D.*

*This is equivalent to 14,789 rifles at $25 each. May 14, 1907.

The above advances were made on account of orders given the company, as follows:—

(1)	For delivery	1903	12,000 rifles.
(2)	"	1904	10,000 "
(3)	"	1905	10,000 "
(4)	"	1906	10,000 "
(5)	"	1907	10,000 "

The first two orders have been completed. Deliveries to the number of 5,000 have been made by the company for 1905 (order No. 3), leaving 5,000 still to be made on that order. For 1906, order No. 4, and order No. 5, 1907, no deliveries have as yet been made.

AUDIT OFFICE, OTTAWA, May 23, 1907.

SIR,—I have to acknowledge receipt of your letter of 15th instant in reference to further payments on account of Ross rifles.

In reply I beg to say that, according to my interpretation of the contract, no advances should be made on account of work done or material supplied except on such rifles as might be delivered during the year. It is a well established principle that moneys should not be paid out of an appropriation for any fiscal year for goods to be delivered in some succeeding year, and, if this rule is not adhered to, it would be possible for the contractor, providing he receives orders, to go on purchasing raw material and manufacturing parts of the rifle that would not be delivered to the government in the form of completed rifles for a number of years, or perhaps not delivered at all. Further, it is possible for your inspector to certify that payments on account of labour and materials have been made to the contractor up to the full extent of 75 per cent on all orders given by the department, orders which it is impossible for the contractor to complete within two or three years. It is also possible, when inspection is made, to find that a large portion of the material manufactured might not pass inspection. There are a variety of reasons that appeal to me why advances should be made only on account of rifles to be delivered during the year. At present, advances have been made amounting to about $360,000. This represents over 15,000 completed rifles and judging by the rate of delivery so far, it will tax the energies of the company to complete and deliver that number during the year.

In connection with the certificates on progress estimates which, according to the contract, are to be made by your inspector of small arms, I wish to direct your attention to what appears to me to be a non-compliance by your department with the terms of the contract, viz.: that the certificate is made in the first instance by a chartered accountant. I fail to see how a chartered accountant's certificate can be of any value in this instance, as I presume he is not competent to judge as to the value of manufactured parts which are subject afterwards to the inspection an approval of the inspector of small arms when acceptance, if up to the standard sample, is to be made by him. I presume the examination made by the accountant is simply and solely of the books of the contractor. The figures shown by the books may not represent the actual value of the parts manufactured, as a large proportion of these parts may not pass inspection, and it is just possible that there may be included in these progress estimates of labour expended, an accumulation of manufactured material from the time the work was commenced, which is absolutely of no value whatever to the government, and possibly parts of the balance of the uncompleted order for the rifle known as 'Mark I.' I would respectfully suggest that an examination of all the stock on hand and represented by the progress estimates should be made by an expert competent to judge of the value of this stock. Otherwise the department may find itself in possession of material to be consigned to the junk heap for which large advances have been made.

In view of all these circumstances, I cannot consent to any further advances being made on progress estimates until these matters are placed on a satisfactory basis, and I am strongly of the opinion that no further orders should be given until this is done.

In the meantime, I do not wish to embarrass the contractor by withholding payment for rifles accepted and delivered to the government if you are satisfied that this will not ultimately result in a direct loss to the government, in the event of the contractor failing to deliver such quantity of rifles as is represented by the 75 per cent advanced on the present orders.

I am, sir, your obedient servant,

The Deputy Minister of Militia and Defence. J. FRASER, *A.G.*

DEPARTMENT OF MILITIA AND DEFENCE, OTTAWA, May 28, 1907.

SIR,—I have the honour to acknowledge receipt of your letter dated May 23, 1907.

It will be impossible for me to take such action as you suggest in your memo. before the minister's return.

I also beg to inclose, herewith, copy of a letter received from the Deputy Minister of Justice re progress estimates on the Ross rifle. Will you kindly let me know if, in view of this opinion of Justice, you still think that you cannot authorize the payment of progress advances.

I have the honour to be, sir, your obedient servant,

The Auditor General. EUG. FISET, Colonel, *D.M.M.D.*

JUSTICE DEPT., OTTAWA, May 6, 1907.

SIR,—Referring to your letter of the 1st instant, with which you inclosed copy of a letter received by you from Sir Frederick Borden, and accounts in duplicate from the Ross Rifle Company, and in which you request an opinion as to the liability of your department under the terms of the contract, also inclosed, I see no reason to doubt that your department is liable to pay the accounts in question.

It may be that you have a remedy against the contractor for breach of his contract to supply the rifles within the stipulated times, but you would have to proceed accordingly, and cannot yourselves break another term of the contract as a sort of set-off against the contractor's breach of contract, which I suppose is what your proposition really amounts to. Papers returned.

I have the honour to be, sir, your obedient servant,

The Deputy Minister of Militia and Defence. E. L. NEWCOMBE, *D.M.J.*

AUDIT OFFICE, OTTAWA, June 1, 1907.

SIR,—In connection with advances *re* Ross rifles, I have to request that you will inform me as to the condition of the first order for 12,000 rifles, Mark I. You are, doubtless, aware that only 9,000 were delivered, although 75 per cent advances were made on the remaining 3,000.

Was the order for the 3,000 cancelled or was it changed into an order of the same number of Mark II?

I am, sir, your obedient servant,

The Deputy Minister of Militia and Defence. J. FRASER, *A.G.*

AUDIT OFFICE, OTTAWA, June 3, 1907.

SIR,—I have to acknowledge receipt of your letter of 28th ultimo, in reply to mine of the 23rd ultimo, regarding advances on Ross rifle contract, in which you inclose a copy of a letter from the Deputy Minister of Justice on this subject which reads as follows:—

'Referring to your letter of the 1st instant, with which you inclosed copy of a letter received by you from Sir Frederick Borden, and accounts in duplicate from the Ross Rifle Company, and in which you request an opinion as to the liability of your department under the terms of the contract, also inclosed, I see no reason to doubt that your department is liable to pay the accounts in question.

'It may be that you have a remedy against the contractor for breach of his contract to supply the rifles within the stipulated time, but you would have to proceed accordingly, and cannot yourselves break another term of the contract, as a sort of set-off against the contractor's breach of contract, which I suppose is what your proposition really amounts to. Papers returned.'

In my former letter I expressed the opinion that under clause 8 of the contract the government was only bound to make advances, not exceeding 75 per cent of the cost of a rifle, on rifles to be delivered during that year, and until the order for the year had been completed and the rifles delivered and accepted, no further advances should be made. This appeared to me to be a fair and businesslike interpretation of this portion of clause 8, which reads as follows:—'The price for all rifles ($25) herein contracted for or to be supplied pursuant to the provisions of this agreement shall be payable on delivery; provided, however, that after the establishment of the said factory and supplying of the plant for the running of the same, the contractor shall be entitled to payment in advance of delivery of moneys actually expended upon the rifles or parts thereof or fixtures therefor to be delivered in that year upon a statement certified by him of the amount so spent, upon establishing the fact of such expenditure to the satisfaction, testified by his signature of such statement, of the government inspector of small arms, such payments in no case to exceed 75 per cent of the price of such rifles.'

My contention was that as the contractor had been paid the full 75 per cent on the first order of 12,000 rifles, had only delivered 9,000, and had received full payment of $25 on those so delivered, he was bound to complete the remaining 3,000 rifles before he would be entitled to advances on subsequent orders. This 12,000 order was for the rifle known as Mark I., which, I understand, was not found altogether satisfactory and for this reason the completion of the balance of the order was stopped, and the pattern known as Mark II. was substituted. But bear in mind that 75 per cent of the cost of the unfinished 3,000 rifles had been advanced to the contractor.

In speaking of the further orders alleged to have been given, I wish to state that I shall require certified copies of the orders issued by the department, for the reason that if the orders have not been given, the contractor cannot have any claim for payment for work performed on rifles which the department may or may not require.

On alleged order for 1904 delivery advances of 75 per cent on 10,000 rifles were made; 10,000 rifles were delivered, and the remaining 25 per cent was paid. On alleged order for 1905 delivery, advances of 75 per cent on 10,000 rifles were made; 7,000 rifles were delivered, and the remaining 25 per cent on those 7,000 was paid, leaving 3,000 more to be delivered, on which the contractor has received 75 per cent.

On alleged order for 1906 delivery, advances of 75 per cent ($187,500) on 10,000 rifles were made, none of which have yet been delivered.

On alleged order for 1907 delivery, of 10,000 rifles, advances of $84,941.04 have been made, and no rifles delivered and I understand application for further advances of $30,000 or $40,000 have been made, which I presume has been the subject of your reference to the Department of Justice and regarding which the Deputy Minister of

Justice says: 'I see no reason to doubt that your department is liable to pay the accounts in question.'

If this ruling is accepted and acted upon, whither are we drifting? Does your department intend to advance 75 per cent on 10,000 rifles for 1907 delivery and receive no rifles, 75 per cent on 10,000 rifles for 1908 delivery and receive no rifles, and so on *ad infinitum?* I am not credulous enough to believe that the government would enter into a contract containing any such possibilities. I should prefer to believe that at the time the contract was made my interpretation of clause 8 was what was intended and, if such is the case, I would respectfully suggest that the department should take immediate action to compel delivery of the uncompleted portions of these alleged orders. In this connection I will again quote the Deputy Minister of Justice, he says, 'It may be that you have a remedy against the contractor for breach of his contract to supply the rifles within the stipulated times, but you would have to proceed accordingly and cannot yourselves break another term of the contract as a sort of set-off against the contractor's breach of contract, which I suppose is what your proposition really amounts to.' Permit me to say that this might hold good in some minor or unimportant part of the contract, but where such a vital part of the contract is unfulfilled, viz., the delivery of the goods on which the government has advanced the money, I can hardly believe that the government would not be justified in refusing to make further advances.

Holding these views I cannot consent to your Letter of Credit being used for the purpose of making these advances.

I may say that the situation appears to me to be so serious that I intend reporting to the Treasury Board for action or decision.

Let me call your attention to clause 8, where provision is made for the certificate of the inspector of small arms as to the amounts expended by the contractor and upon which the advances have been made, and permit me to say that, while the progress estimates are certified to by the inspector, he has informed me that he is not certifying of his own knowledge but on the strength of a certificate made by Mr. Ernest Wurtelle, a chartered accountant at Quebec. Now Mr. Wurtelle may be competent to make the certificate on behalf of the contractor, but as he is not in the employ or under the control of the government his certificate cannot be accepted under the Consolidated Revenue and Audit Act. If this arrangement of certificates has been made with the consent or on the instructions of the department and advances made on the strength of these certificates aggregating over $800,000, I must say that it is not only unbusiness-like but also illegal and no certificates of this nature will be knowingly accepted by this office.

Please do not overlook my request for copies of orders given from time to time for the rifles.

I am, sir, your obedient servant,

The Deputy Minister of Militia and Defence. J. FRASER, *A.G.*

AUDIT OFFICE, Ottawa, June 4, 1907.

SIR,—I inclose herewith copy of a letter which I have sent to the Deputy Minister of Militia and Defence in reference to advances on account of Ross Rifle contract and have to request that you will bring the matter to the attention of the Treasury Board at your earliest convenience.

According to the ruling of the Department of Justice the government is obliged to advance to the contractor all amounts expended by him on labour and materials entering into the manufacture of the rifles, up to 75 per cent of the cost of the rifle. These advances have been made from time to time and payment in full has also been

made for all rifles delivered and accepted by the government, but the contractor has failed to fulfil his part of the contract as out of five alleged orders, the first for 12,000 rifles and the next four for 10,000 each, he has completed only one order, viz., the second one. There are 3,000 of the first order undelivered, 3,000 of the third order and the whole of the fourth and fifth orders undelivered, while advances have been made of the full 75 per cent on the first four orders and $84,941.04 on the fifth order, and, so far as I am aware, no steps have been taken by the government to enforce the fulfilment of the contract, while the contractor is claiming further advances on the fifth order.

I have directed the Deputy Minister of Militia and Defence to refrain from using his Letter of Credit for the purpose of making further advances and would respectfully suggest that you advise him to the same effect. In the issue of certificates for further credits in his favour I shall issue them only on condition that this restriction be observed and, if he decides to make further advances, direct application for audit before payment must be made to this office.

I am, sir, your obedient servant,

The Secretary of the Treasury Board. J. FRASER, *A.G.*

DEPARTMENT OF MILITIA AND DEFENCE, OTTAWA, June 4, 1907.

SIR,—I have the honour to acknowledge the receipt of your letter, with further reference to the question of advances to the Ross Rifle Company, and shall lay it, and all the correspondence which has passed between your department and this, with reference to this subject, before my minister immediately upon his return from the Colonial Conference. In the meantime, in compliance with your request, I forward copies of orders given from time to time to the Ross Rifle Company for rifles.

As regards the first order for 12,000 rifles, the contract with the Ross Rifle Company, of which you have a copy, is the order.

I forward, herewith, a copy of a letter to the Ross Rifle Company from my predecessor, dated November 22, 1904. This letter has been accepted by the minister and the Ross Rifle Company as an order for 20,000 rifles, in addition.

Also, attached is a letter from the Acting Deputy Minister to the Ross Rifle Company, dated September 24, 1906, ordering an additional 10,000 rifles.

There remains an order for another 10,000 rifles, which the Minister of Militia gave to the company direct. There is no copy of that order in the records of the department, but I shall endeavour to obtain a copy for your information.

I have the honour to be, sir, your obedient servant,

The Auditor General. EUG. FISET, Colonel, *D.M.M D.*

DEPARTMENT OF MILITIA AND DEFENCE, OTTAWA, November 22, 1904.

GENTLEMEN,—I have the honour to acknowledge the receipt of your letter of the 15th inst., addressed to the Honourable the Minister of Militia and Defence, relative to Ross rifles which you are to furnish to this this department, and in answer thereto I beg leave to inform you:—

(a) That it is to be understood the 12,000 rifles which you are to supply under your contract therefor, dated March 27, 1902, are to be supplied with sights similar to that upon the provisional sample of the Mark II. rifle, the department to allow you $11,351.50 for replacing the sights originally accepted with those of the Mark II. rifle pattern.

(b) The actual cost of the sights of the original pattern and the fixtures thereof which, as intimated above, are not now to be used on the 12,000 rifles originally ordered, and which you state amount to $11,351.50, will be allowed when a certificate that the cost aggregates that sum is received from Colonel Cartwright, who has been asked to give the matter his immediate attention.

(c) The provisional sealed pattern Mark II. rifle is to be replaced by a permanent sealed pattern including the new sight, and it is agreed that you shall be paid a sum not exceeding $3,648.50 as the actual cost of any and all new fixtures you may have to provide to make modifications in the rifle and sight; payment of this amount is to be conditional upon a certificate from Colonel Cartwright that it is correct. That officer has been asked to furnish the certificate without delay.

(d) As soon as a sample Mark II. rifle is accepted and made a permanent sealed pattern, the minister will give you an order for 12,000 rifles similar thereto at twenty-five dollars ($25) each, the delivery of which is to be completed before July 1, 1905; payment therefor will be made out of the appropriation for the current year.

(e) I am also instructed by the minister to inform you that in view of your having already ordered sufficient materials to make up 20,000 Mark II. rifles, he is prepared to give you another order for 8,000 additional Mark II. rifles at the same price ($25 each), to be delivered between July 1, 1905, and January 1, 1906; payment therefor is to be made out of next year's vote, subject, of course, to an appropriation being made for the purpose by parliament.

I am, gentlemen, your obedient servant,

Messrs. Ross Rifle Company, Quebec. L. F. PINAULT, Colonel, *D.M.M.D.*

DEPARTMENT OF MILITIA AND DEFENCE, OTTAWA, September 24, 1906.

GENTLEMEN,—I am directed by the Minister in Militia Council to notify you, in accordance with the terms of paragraph 3 of your contract dated March 27, 1902, that you will be required to deliver 10,000 Ross Rifles to the Canadian government, during the calendar year beginning January 1, 1907, in addition to the quantities already ordered, the manufacture, inspection and delivery of the rifles to be governed as heretofore by the terms of the contract and any agreements made subsequently. The price to be $25 unless and until an increased price is agreed upon.

Be good enough to inform me, at your earliest convenience, if this is satisfactory.

I have the honour to be, gentlemen, your obedient servant,

Messrs. The Ross Rifle Company. (Sgd.) E. F. JARVIS, *Acting D.M M.D.*

AUDIT OFFICE, Ottawa, July 16, 1907.

SIR,—With reference to our conversation in connection with the certificate to be made by your officer on progress estimates for advances to the Ross Rifle Co. I submit herewith a statement of what his returns should show for the purposes of this office. If there is any further information which might be necessary for your department and which would tend to further safeguard the government, you can add it to what I require.

Progress Estimates.

A progress estimate of work done should be furnished monthly commencing with the first estimate in 1903.

The statement should show:—

Material purchased and paid for the rifles.

Amount paid for labour and superintendence in manufacture.
Total expenditure at end of previous month.
Expenditure during the month.
Amount advanced to the company.
Balance due the company.

Care must be taken to see that nothing is included for cost of tools or machinery; parts manufactured or material purchased in excess of the amount required to complete the orders then on hand, or for labour expended or material purchased for the manufacture of any other article than the Ross rifle contracted for by the government. This precaution is necessary, as I understand the company is manufacturing arms for sale to the public.

Inventory.

If possible an inventory of stores on hand should be taken every month, commencing with the one which, I understand, was taken a few days ago by an officer of the Militia Department. This inventory should show:—

The manufactured parts and raw material on hand at that date.

The amount added during the month.

The issues from stock during the month and delivered to the inspector of small arms in the form of completed rifles, for his inspection and acceptance.

The balance on hand at the close of the month.

Any rifles or parts returned by the inspector as not meeting his requirements should not be included in above, neither should the work performed to bring them up to standard be included in the progress estimates.

I am, sir, your obedient servant,

The Deputy Minister of Militia and Defence. J. FRASER, *A.G.*

AUDIT OFFICE, OTTAWA, July 31, 1907.

DEAR COL. FISET,—Referring to our conversation *re* Ross rifle advances, I beg to say that I cannot consent to the advances being made on the certificates which you have shown me. You will recollect that I sent you a statement of what I will require from the inspecting officer before payment can be made.

I saw Sir Charles Ross this morning, and he saw no serious difficulties in that statement being complied with. He asked me if payment could now be made, as an order in council had been passed extending time of delivery, and I told him to see you and have you send me a copy of the order in council and a statement of how the matter now stands, as progress may have been made in meeting my requirements.

As you have no certificate from the inspecting officer such as I suggested, and no progress has been made in the delivery, it appears to me that the matter stands at present in the same position as it did when I asked you to refrain from making further payments till some satisfactory arrangements would be made. The only change in the situation is the passing of the order in council extending the time of delivery.

Yours truly,

Deputy Minister of Militia and Defence. J. FRASER, *A.G.*

AUDIT OFFICE, OTTAWA, August 6, 1907.

SIR,—I received a copy of the order in council of July 27 last, extending the time for delivery of the balance of Ross rifles ordered, viz.: 15,000 to be delivered before January 1, 1908, and 10,000 before June 1, 1908.

The Department of Justice having reported that under the contract the company is entitled to advances on progress estimates on orders for rifles to be delivered, up to 75 per cent of the cost of the rifles, and your department having agreed to appoint an officer competent to examine the books and accounts of the company and certify to the expenditure made on the rifles, and having had an interview with Sir Chas. Ross and Col. Wurtele, the proposed inspecting officer for this purpose, when it was agreed that a certain form of certified statements would be furnished this office, a copy of which statements was handed to me to-day and afterwards transmitted to you, I therefore withdraw the restrictions placed on your letter of credit in connection with the payment of these advances.

In order to carry out the terms of the extended contract, it will be necessary for the company to deliver about 1,000 rifles per month from now to January 1 next, and over 1,600 per month for the following six months. I trust that care will be taken to see that satisfactory progress is made from month to month to ensure the due fulfilment of the contract.

I am, sir, your obedient servant,

Deputy Minister of Militia and Defence. J. FRASER, *A.G*

Extract from Order in Council, July 27, 1907.

On a memorandum dated July 19, 1907, from the Minister of Militia and Defence, submitting that under the contract with Sir Charles Ross, Bart., for the manufacture of rifles, the contractor contracted to deliver, during the calendar year 1903, 12,000 rifles corresponding in every respect with, and equal to an approved standard sample rifle (para. 2 of contract).

The contractor, also, agreed that, if the government so desired and signified its desire in writing, on, or before, the 30th day of September in any year, after the year of the contract (1903), he would deliver to the government, within the year following the next succeeding 1st day of January, a number of rifles, not less than 10,000 manufactured at the Ross Rifle Company's factory (para. 3 of contract).

Under the provisions of the contract, rifles have been ordered to the number of 52,000, viz.: 1903, 12,000; 1904, 12,000; 1905, 8,000; 1906, 10,000; 1907, 10,000. The orders for the years 1903 and 1904 have been filled; that for 1905 has been filled in part, and that for 1906 has not been filled. The time within which the order for 1907 should be filled will not expire until December 31, next.

The contractor has not been able to carry out his contract to deliver all rifles under order within the specified time for, among other, the following reasons:—

(a) Changes in and modifications of the rifle, as well as loss of time in getting out new tools, fixtures and gauges.

(b) Frequent and prolonged delays in the delivery of raw material.

(c) The unusual and continued prosperity of Canada and other countries, which has developed a wonderfully increased demand for all sorts of manufactured products, with the result that skilled and semi-skilled labour is widely sought for, and commands a premium everywhere. The company, therefore, have found it difficult to induce tool-makers and mechanics to come to Quebec, where many of them remained but a short time, even though they were paid more than the highest wages given elsewhere. Moreover, as soon as some of those employed acquired some knowledge of their work, they went elsewhere to engage as qualified and experienced mechanics.

The minister further submits that he has had the position of the Ross Rifle Company, and the question of its ability to carry out its contract, under consideration, and, after going thoroughly into the matter, he is satisfied that it is in a position to do so. Annexed hereto are reports and correspondence bearing on that point.

The Minister also submits that the back-sight to be placed on rifles under order for the year 1907 has not yet been determined, pending investigation by a board of officers, assembled by him, as to the best back-sight among the different known inventions. Owing to the delay which has necessarily occurred, in the selection of a back-sight, the company will not be able to complete this order within the specified time, even if it were otherwise able to do so.

The minister, having regard to the foregoing recommends with reference to the balance of rifles of the orders for the years 1905 and 1906, yet to be delivered, that the contractor be given until January 1, 1908, to complete such orders, and that, as regards the order for 1907, the contractor be given until June 1, 1908, to complete such order.

The committee submit the same for approval.

(Sgd.) F. K BENNETTS, *Asst. C.P.C.*

Extract from Order in Council, September 12, 1907.

Militia and Defence:—

On a memo. dated August 28, 1907, from the Minister of Militia and Defence, submitting that the contract with Sir Charles Ross, Bart., for the manufacture of Ross rifles provides for the payment of progress estimates upon rifles, or parts thereof, or fixtures therefor, to the extent of 75 per cent of the price of such rifles, upon a certified statement by the contractor of the amount so spent, upon establishing the fact of such expenditure to the satisfaction of the government inspector of small arms, testified by his signature thereto;

That, before the payment of any such progress estimate, it became apparent that this provision of the contract could not be satisfactorily carried out because it was undesirable that such payments should be made upon the certificate of the contractor and because the labour of verifying every item thereof, which would devolve upon the inspector of small arms, would seriously interfere with his usefulness as such;

That the then Deputy Minister consulted with the contractor as to the best procedure to follow to overcome this difficulty, and it was decided, with the approval of the Minister of Militia and Defence, to employ a chartered accountant at the expense of the Ross Rifle Co. to make the required certificate, the inspector of small arms agreeing that if that should be done he would then be in a position to certify to the statements;

That Lieut. Col. E. F. Wurtelle, R.O., was consequently employed for the work and that officer has certified to all progress estimates which have been paid to the Ross Rifle Company since the contract was entered into, before such progress estimates were authorized for payment;

The minister therefore recommends that Lieut. Col. E. F. Wurtelle be employed for the work of certifying to these progress estimates as a government employee and paid out of public funds at the rate of $5 per diem for such periods as it may be necessary to employ him to perform this work.

The committee submit the same for approval.

Re Postal Notes.

AUDIT OFFICE, OTTAWA, February 23, 1907

SIR,—The Stamp Branch of your Department furnishes to this Office quarterly a statement showing the Stamps on hand at the beginning of the quarter, the amount received from the Manufacturers, the amount returned by Postmasters, the amount issued to Postmasters, the amount destroyed, and the balance on hand at the end of the quarter.

A statement in somewhat similar form covering Postal Notes should also be furnished.

If not too much trouble, I would like to have such a statement covering the transactions of the fiscal year 1905-6.

I am, sir, your obedient servant,

The Deputy Postmaster General. J. FRASER, *A. G.*

POST OFFICE DEPARTMENT, OTTAWA, February 26, 1907.

SIR,—In reply to your letter of the 23rd instant, requesting that you be furnished with quarterly statements of the Postal Note transactions similar to the statements rendered by the Postage Stamp Branch, which show the Stamps on hand at the beginning of each quarter, the amount received from the manufacturers, the amount returned by Postmasters, the amount issued to Postmasters, the amount destroyed and the balance on hand at the close of each quarter; I beg to say that no stock of Postal Notes is

kept in the Department. The manufacturers merely furnish each day, sufficient Postal Notes to fill the requisitions received from Postmasters for the day. Postal Notes returned by Postmasters are not destroyed, they being filed in the Department with the paid Notes.

In regard to your request that you be furnished with a statement of the Postal Note transactions for the fiscal year 1905-6, I beg to say that complete statements will, as usual, be found in Appendix F. of the Postmaster General's Annual Report. I enclose a copy of the appendix, and would ask whether you desire that statements similar to these be rendered to your office quarterly.

I am, sir, your obedient servant,

The Auditor General. R. M. COULTER, *D. P. G.*

Re **Shortage at St. Eustache, Que.**

AUDIT OFFICE, OTTAWA, May 4, 1907.

SIR,—I have received copy of an Order in Council dated April 27, 1907 authorizing the withdrawal from the Post Office Guarantee Fund of $179.67 to make good to Post Office Revenue balance due by Leon Miller ex-Postmaster at St. Eustache, Que.

Please inform me of the circumstances connected with this shortage.

Was this officer not under a Guarantee Bond ?

I am, sir, your obedient servant,

The Deputy Postmaster General. J. FRASER, *A. G.*

POST OFFICE DEPARTMENT, OTTAWA, May 7, 1907.

DEAR SIR,—I have to acknowledge the receipt of your letter of the 4th instant asking to be informed of the circumstances connected with the shortage at St. Eustache and inquiring whether the ex-Postmaster was not under a Guarantee Bond.

In reply I may inform you that when the St. Eustache office was removed from the charge of Mr. Leon Miller there was found to be a shortage in his accounts which he was unable to make good. The circumstances pointed to the conclusion that the Postmaster, who had become unable to handle his own accounts, had been robbed by some person or persons who had access to the Post Office but the Post Office Inspector who investigated the case was not able to fix the responsibility on any particular person and the Department had no recourse under the circumstances but to withdraw the amount from the Guarantee Fund which was established in connection with the assessment system of insurance adopted in 1897—see Post Office Act, chapter 26, 61 Victoria and chapter 28, 2 Edward, assented to on the 15th of May, 1902, (paragraph 14).

I may add that all Postmasters appointed since the assessment system above referred to was adopted are insured therein and are not required to furnish a Guarantee Company's bond.

I am, sir, your obedient servant,

The Auditor General. R. M. COULTER, *D. P. G.*
